NASA FutureFlight CENTRAL	**SIMULATION REQUEST**	**Sim No.** (assigned upon approval)

Preparer:　　　　　　　　　　　　　　　　　　　　　　　　　**Date:**

This request is used to schedule the use of the FutureFlight Central simulation facility. A completed request form is required before any simulation is scheduled. A separate request form is required for each entry into the facility even if the same scenario has been previously tested. The form should be submitted as soon as the information is available. If significant design and fabrication of software development are required, six months should be considered a minimum leadtime. This form is not intended to represent the final configuration, but to give enough information for FFC management to develop a proposal to satisfy the customer's needs. Please give as much detail as possible. Additional sheets can be attached.

Simulation Title (include acronym):	Principle Investigator: phone: email:

Test Period Req'd:　　　　　**days; between**　　　　　**and**

Research Objectives

Simulation Description

Design requirements (any design needs you require help with)

![NASA FutureFlight Central logo]	**SIMULATION REQUEST**	**Sim No.**
		(continued)

Control Requirements (include # of moving objects, # of controllers needed)

Fabrication Requirements (any hardware fabrication or installation you need help with)

Facility Subsystem Requirements (any special uses of AV, communication or other systems)

Data Recording and Analysis Requirements (database, video, audio)

Data System Requirements (use of data displays, accessing data, etc.)

Software Requirements (any software development or interfacing you need help with)

Special Requirements and/or Comments (i.e. security and proprietary issues)
